

Wide Format Ink Series

roland®

▼ Technical Specifications

MLD series PicturePerfect digital imaging ink is a mild solvent based, ultraviolet light resistant pigmented ink that is applied to various media using Roland® Soljet Series™, VersaCAMM™ series printers or similar piezo inkjet printers utilizing Epson head technologies. This ink has been specifically designed for use in these printers assuring compatibility an easy switch over. Utilizing our EasyFill Pro™ bulk ink delivery system you will enjoy dramatic savings over OEM inks. Triangle's investment in research and development is evident in their mild solvent inks as they boast better adhesion to the substrate, faster dry times, higher IPA resistance, and a larger color gamut than those of the OEM. Our inks are manufactured under strict quality controls; pigment particle size is sub micron and color is computer controlled for consistent batch to batch uniformity.

Ink Train Warranty

▼ Triangle Digital INX offers the most comprehensive warranty in the industry. If inks are proven to be the cause of the printer breakdown during the initial OEM warranty period, then Triangle Digital INX will provide parts, service or reimbursement costs required to repair damage to the ink train.*
*See warranty disclosure statement for details.

Outdoor Durability Warranty

▼ Triangle Digital INX backs their products with their Worldwide Ink Durability Warranty. Triangle Digital INX PicturePerfect(TM) Inks have been extensively used for many years and exposed to virtually all global and outdoor climates.*+
*See specific product durability warranty as some vary.
+ Ask a sales representative for Triangle's complete Worldwide Ink Durability Warranty.

▼ Color Center

Triangle Digital INX provides custom profiles to our customers at no charge. Every print shop is unique in their set up just as every printer is slightly different from the other. For this reason Triangle offers to create custom profiles for our customers various needs.

▼ Spare Parts

Triangle Digital INX offers common replacement parts (at a significant savings over the OEM) for many of the printers that it manufactures ink for. These parts are the same parts that are sourced by the manufacturers themselves, refurbished, or are re-sourced to solve known problems provided by the OEM provided parts.

▼ Bulk Ink System

Triangle Digital Inx is proud to offer to the wide format printing community a revolutionary bulk ink delivery system, the EasyFill Pro™. The EasyFill Pro system will substantially increase and enhance your productivity while reducing your costs.

When using EasyFill Pro™ system, you can discontinue use of OEM cartridges, therefore reducing your company's dependency on the OEM.

By using Triangle's bulk inks you will feel the positive effect in cost savings.
