

Wide Format Ink Series

▼ Technical Specifications

SCP series PicturePerfect digital imaging ink is a mild solvent based, ultraviolet light resistant pigmented ink that is applied to various media using HP® Designjet 9000s and 10000s printers or similar piezo inkjet printers utilizing Konica print head technology.

Triangle has been manufacturing digital ink for the outdoor market since 1993, longer than any other 3rd party ink manufacturer. Our experience is your assurance of quality.

Inks for

HP®

Designjet™ 9000s and 10000s

Available in 1lt. bottles

Ink Train Warranty

▼ Triangle Digital INX offers the most comprehensive warranty in the industry. If inks are proven to be the cause of the printer breakdown during the initial OEM warranty period, then Triangle Digital INX will provide parts, service or reimbursement costs required to repair damage to the ink train.*

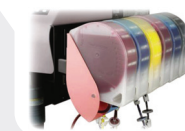

*See warranty disclosure statement for details.

Outdoor Durability Warranty

▼ Triangle Digital INX backs their products with their Worldwide Ink Durability Warranty. Triangle Digital INX PicturePerfect(TM) Inks have been extensively used for many years and exposed to virtually all global and outdoor climates.*+

*See specific product durability warranty as some vary.

+ Ask a sales representative for Triangle's complete Worldwide Ink Durability Warranty.

▼ Color Center

Triangle Digital INX provides custom profiles to our customers at no charge. Every print shop is unique in their set up just as every printer is slightly different from the other. For this reason Triangle offers to create custom profiles for our customers various needs.

▼ Spare Parts

Triangle Digital INX offers common replacement parts (at a significant savings over the OEM) for many of the printers that it manufactures ink for. These parts are the same parts that are sourced by the manufacturers themselves, refurbished, or are re-sourced to solve known problems provided by the OEM provided parts.

▼ Bulk Ink System

Triangle Digital Inx is proud to offer to the wide format printing community a revolutionary bulk ink delivery system, the EasyFill Pro™. The EasyFill Pro system will substantially increase and enhance your productivity while reducing your costs.

When using EasyFill Pro™ system, you can discontinue use of OEM cartridges, therefore reducing your company's dependency on the OEM.

By using Triangle's bulk inks you will feel the positive effect in cost savings.

For additional info:

info@triangleINX.com

| Print model | Number of Colors | EasyFill PRO version |
|------------------|------------------|----------------------|
| Designjet 9000s | 6: CMYK Lc Lm | TDEFSCP |
| Designjet 10000s | 6: CMYK Lc Lm | TDEFSCP |

▼ Multichip

Multichip is a revolutionary and innovative tool, smart and easy to install and use. Multichip communicates with the printer's electronics in order to avoid using chips. With Multichip and the EasyFill PRO™ bulk ink system, you will save time and money and you'll never have to worry again about chips.
